

Popular Democratic Republic of Algeria
Ministry of Higher Education & Scientific Research
General Directorate for Scientific Research and Technological Development

Renewable Energy Development Center
The Division of Hydrogen - Renewable Energies
Organizes

2019
ISSH₂

on 27-28 November 2019 in Algiers.

International Symposium on Sustainable Hydrogen

Call for papers

Topics

- Topic 1 : Systems and process techniques and technologies
- Topic 2 : Advances in production, storage, transport and distribution.
- Topic 3 : Systems engineering : fuel cell, combustion motor, etc.
- Topic 4 : Energy transition and stationary and mobile applications
- Topic 5 : Security aspects (standards, norms, codes, etc.) and risk analysis and management
- Topic 6 : Economic issues : life cycle, deployment, market trends and strategies.
- Topic 7 : Environmental issues : pollution and climate change.
- Topic 8 : Advances in energy material : characterizations, properties et applications.
- Topic 9 : Energy policy and international perspectives : projects, programs and regulations
- Topic 10 : Energy management and internet of energy
- Topic 11: Other aspects
- Special topic: Promising alternative energy and alternative fuels

Submission of abstract : Before 15 June 2019
Notification of acceptance : By 30 June 2019
Full paper submission : Before 15 September 2019

Selected articles will be published in International Journal of Hydrogen Energy and other international journals to be announced soon.

The submission website for ISSH2-2019 is : <https://easychair.org/conferences/?conf=isssh22019>
